Status

Completed Jan 2008

Portfolio

Overview

A detached Edwardian house which although generally featured generous accommodation had limited kitchen/family space and did not make the most of the patio and external amenity space and views to the beautiful rear garden.

As well as extensive internal remodelling the project comprised a two storey side extension to provide a large kitchen/family room at ground floor level and an additional bedroom and bathroom facilities at first floor level.

Due to the sloping nature of the rear of the site a new garden design was developed using a series of terraces linked via formal steps and other hard landscaping features.
